Why Brother?

Built on Experience. Designed for Professionals.

For over a century, Brother has developed solutions that help people work more efficiently. With experience in labelling technology since 1988, Brother offers professional identification solutions for demanding industrial applications.

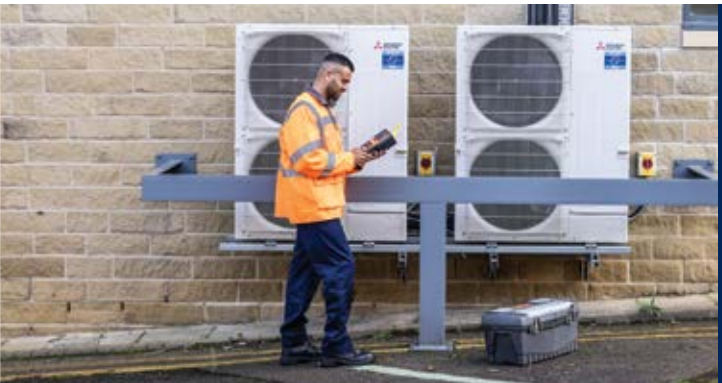
From electrical installations to complex network infrastructure, Brother combines durable labels, purpose-built machines and easy-to-use software to support professional identification.

Proven Experience
Labelling solutions backed by decades of innovation.

Durable Identification
Laminated tapes designed to resist water, abrasion, fading and demanding conditions.

Flexible Workflows
Create labels on-site, from compatible mobile devices or through PC software.

Professional Support
A global brand with established product and after-sales support.



Industrial Labelling Machine Range

Professional labelling solutions designed for demanding industrial environments.

PT-E310BTVP

Handheld Professional Industrial Labelling Machine with Bluetooth

PT-E560BTVP

Handheld Professional Industrial Labelling Machine with Bluetooth

PT-E920BT

Professional Industrial Labelling Machine with Bluetooth

PT-P950NW

Professional Networked Industrial Desktop Label Printer

PT-E850TKW

Professional Industrial Tube & Label Printer

HANDHELD PROFESSIONAL
INDUSTRIAL LABELLING MACHINE

PT-E310BTVP

Professional Labelling Made Simple.

Designed to deliver durable, professional identification labels for electrical installers, cable management, and network infrastructure applications in demanding work environments.

18mm
Maximum label width

20mm/second
Print speed performance

6 keys
One-touch industry application keys

Key Specs and Features

PT-E310BTVP

Features	Specifications
Tape width	3.5, 6, 9, 12, and 18mm
Print speed	Up to 20mm/second
Connectivity	Bluetooth and USB-C
Industry Application Keys	6 dedicated keys for general, faceplate, cable flag/wrap, punch down block and patch panel identification
Cutter	Built-in industrial-strength cutter with cut/ pause function
Tape Compatibility	TZe laminated tapes, strong adhesive, Flexible ID, self-laminating and HSe heat-shrink tubes
Power	Rechargeable Li-ion battery
Mobile App	Brother Pro Label Tool app
PC Software	P-Touch Editor 6.0
Label Design	Industry templates, serialized labels, logos, and barcodes
Included Accessories	Rechargeable Li-ion battery, USB Type-C cable, 18mm TZe Flexible ID tape and hard carrying case
Display Language	English and Arabic

HANDHELD PROFESSIONAL
INDUSTRIAL LABELLING MACHINE

PT-E560BTVP

Built for Demanding Installations.

Combines faster printing, wider labels and automatic cutting for efficient industrial identification. Ideal for electrical installations, cable management and network infrastructure.

24mm
Maximum label width

30mm/second
Print speed performance

6 keys
One-touch industry application keys

Key Specs and Features

PT-E560BTVP

Features	Specifications
Tape width	3.5, 6, 9, 12, 18, and 24mm
Print speed	Up to 30mm/second
Connectivity	Bluetooth and USB-C
Industry Application Keys	6 dedicated keys for general, faceplate, cable flag/wrap, punch down block and patch panel identification
Cutter	Automatic full and half cutter for continuous label printing
Tape Compatibility	TZe laminated tapes, strong adhesive, Flexible ID, self-laminating and HSe heat-shrink tubes
Power	Rechargeable Li-ion battery
Mobile App	Brother Pro Label Tool app
PC Software	P-Touch Editor 6.0
Label Design	Industry templates, serialized labels, QR codes and barcodes
Included Accessories	Rechargeable Li-ion battery, USB Type-C cable, 24mm TZe Flexible ID tape and hard carrying case.
Display Language	English and Arabic

PROFESSIONAL INDUSTRIAL LABELLING MACHINE WITH BLUETOOTH

PT-E920BT Cube Pro

Professional Labelling. Straight from Your Phone.

A compact, portable labelling machine designed to create durable, professional labels directly from your smartphone or PC, with Bluetooth connectivity and automatic cutting for efficient on-site identification.

36mm
Maximum label width

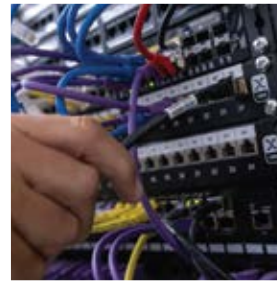
Bluetooth 5.0
Wireless smartphone connectivity

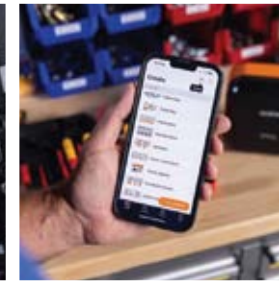
Auto Cutter
With half-cut functionality

Key Specs and Features

PT-E920BT CUBE PRO

Features	Specifications
Tape width	3.5, 6, 9, 12, 18, 24 and 36mm
Print speed	Up to 20mm/second
Connectivity	Bluetooth 5.0 and USB-C
Print Resolution	360 dpi
Cutter	Automatic cutter and half cut function
Tape Compatibility	TZe laminated tapes and compatible industrial Pro-tapes
Power	Rechargeable Li-ion battery
Mobile App	Brother Pro Label Tool app
PC Software	P-Touch Editor 6.0
Label Design	Industry templates, serialized labels, logos, QR codes and barcodes
Design	Compact, lightweight and portable
Included Accessories	Rechargeable Li-ion battery, USB cable and 36mm TZe strong adhesive tape





PROFESSIONAL NETWORKED
INDUSTRIAL DESKTOP LABEL PRINTER

PT-P950NW

High-Speed Labelling for Connected Workflows.

Delivers fast, high-resolution labelling with flexible connectivity. Best for creating consistent identification labels for equipment, cables, network infrastructure and larger labelling projects.

36mm
Maximum label width

60mm/second
Wireless smartphone connectivity

360 dpi
Print resolution

Key Specs and Features

PT-P950NW

Features	Specifications
Tape width	3.5, 6, 9, 12, 18, 24 and 36mm
Print speed	Up to 60mm/second
Connectivity	USB, wired network and Wi-Fi
Print Resolution	360 dpi
Cutter	Automatic full and half cutter
Tape Compatibility	TZe laminated tapes and HSe heat-shrink tubes
Power	AC adapter included; rechargeable Li-ion battery and base optional
Barcode Printing	21 barcode protocols via P-Touch Editor 5.1
Numbering	Sequential numbering (1-999)
File Storage	Up to 99 files
Mobile App	Brother iPrint&Label
PC Software	P-Touch Editor

PROFESSIONAL INDUSTRIAL TUBE & LABEL PRINTER

PT-E850TKW

One Machine for Tubes and Labels.

Combines high-speed label and tube printing in one versatile machine. Its twin-engine design, detachable keyboard and flexible connectivity make it ideal for electrical installations, cable identification and industrial equipment labelling.

36mm
Maximum label width

60mm/second
Label print speed

40mm/second
Tube print speed

Key Specs and Features

PT-E850TKW

Features	Specifications
Printing Technology	Twin-engine design for both tubes and labels
Tape Width	3.5, 6, 9, 12, 18, 24 and 36mm
Label Print Speed	Up to 60mm/second
Tube Print Speed	Up to 40mm/second
Connectivity	Wireless and USB
Keyboard	Detachable keyboard with dedicated industry functions
Tape Compatibility	TZe laminated tapes and compatible heat-shrink tube materials
Power	Rechargeable Li-ion battery
Mobile Apps	Brother iPrint&Label and Cable Label Tool
PC Software	P-Touch Editor
Label Design	Barcodes, sequential numbering, electrical symbols and industry templates
Languages	English, Arabic and Farsi

INDUSTRY OVERVIEW

Professional Labelling Solutions

Clearer Identification.
Safer Installation.
More Efficient Operations.

Brother's professional labelling solutions are designed for electricians, network technicians, and industrial professionals who need durable, clear, and compliant labels in any environment.

PT-E310BTVP
Handheld Pro Labelling and Network Installations

PT-E560BTVP
Advanced Handheld Labelling with Bluetooth

PT-E920BT
Compact, Mobile Labelling with Bluetooth

PT-P950NW
Networked Industrial Desktop Labeller

PT-E850TKW
Industrial Tube and Label Printer with Large keyboard

Industry Applications:

Electrical Installation

Telecom & Datacentre

Manufacturing & Industries

General Asset Management

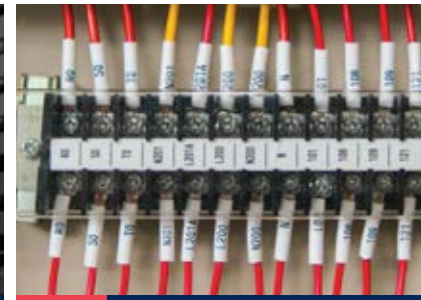
Energy & Utilities

Facilities & Infrastructure

Labelling for Every Industry Need

From electrical panels to data cables, machines and assets, Brother labelling solutions help you work smarter, safer, and more organised across a wide range of industries.

Electrical
Clean and durable labels for panels, switches, cables, and components.



Telecom
Organised cable identification for network infrastructure.

Networking
Identify switches, ports, and cables for easier management and maintenance.

Data Centre
Reliable labelling for servers, racks. and critical IT equipment.

Durable & Industrial Grade
Withstands heat, chemicals, abrasion and harsh environments.

Compliant Labels
Supports safety, identification, and industry standards.

Wide Range of Tapes
TZe laminated tapes, heat shrink tubes, and specialist tapes for every application.

APPLICATIONS

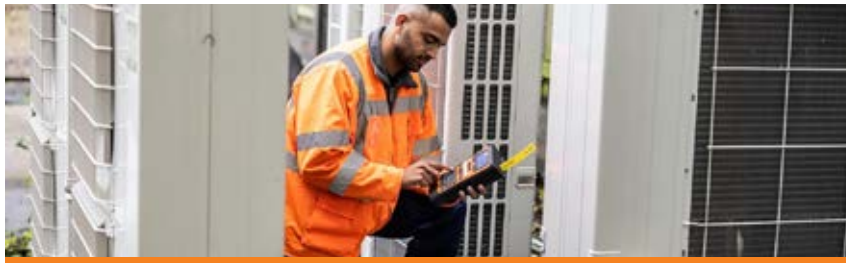
Electrical

Clear identification for panels, circuits, cables, and electrical equipment.

- **Easier maintenance and troubleshooting**
- **Clear identification of circuits and panels**
- **Durable labels for demanding environments**

Distribution Panels

Clear identification for panels, breakers, and electrical components.



Outdoor and Large Equipment

Identify electrical equipment, control panels, and outdoor installations with durable labels for long-term clarity.

Cables and Wiring

Durable and readable labels for any kind of wiring system.

On-site Labelling

Create professional labels directly on-site for fast installation.

Outlet and Fixtures

Identify power outlets, switches, and electrical fixtures.

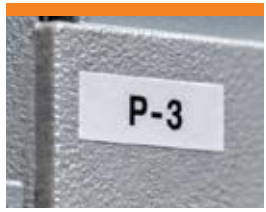
Brother labelling solutions help electricians and facility professionals create durable, clear, and compliant labels for electrical installations, ensuring easier maintenance, safer operations, and better organisation.

Brother labelling solutions help reduce troubleshooting time, minimise errors, and support efficient facility management.

RECOMMENDED
BROTHER PRO TAPES

A range of durable tapes designed for Electrical Installations, providing clear and long-lasting labels.

TZe Strong Adhesive (TZe-S)



For smooth, rough, and textured surfaces.

TZe Flexible ID (TZe-FX)

Wrap securely around wires and cables.

HSe Heat Shrink Tube

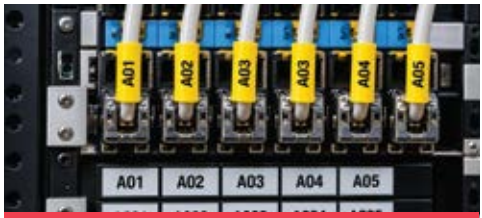
For permanent cable identification.

APPLICATIONS

Telecom

Practical labels for wiring, cable routes, and connection points.

- **Organised network infrastructure**
- **Faster installation and reduced errors**
- **Durable identification for long-term use**



Network Rack Identification

Label ports, patch panels, and network equipment for quick reference.

Patch Panels and Network Cabling

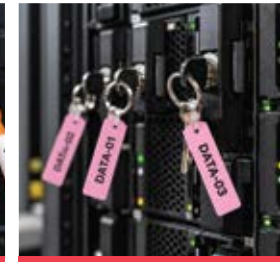
Consistent labels make cable tracing and changes easier to manage.

Rack and Port Labelling

Identify switch ports and rack connections.

Cable Management

Trace individual cables with clear, durable labels.



IT Equipment Labels

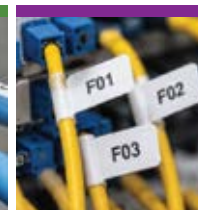
Keep devices and connections easy to recognise.

Brother labelling solutions help network engineers and data centre professionals create durable, clear labels for cables, patch panels, racks, and IT equipment, ensuring easier maintenance, faster troubleshooting, and better organisation.

They also help minimise connection errors, reduce downtime, and support efficient infrastructure management.

RECOMMENDED
BROTHER PRO TAPES

A range of durable tapes designed for Telecom & Datacentre, providing clear and long-lasting labels.

TZe Flexible ID (TZe-FX)	TZe Self-Laminating (TZe-SL)	FLe Flag (Die-cut)	HSe Heat Shrink Tube
			


Wrap securely around wires and cables.	Protects printed text for cable marking.	Ideal for fibre optic and small-diameter cables.	For permanent cable identification.

APPLICATIONS

Networking

Every network connection clearly identified with labels for faster troubleshooting.

- **Clear cable identification**
- **Easier management and troubleshooting**
- **Organised and efficient network infrastructure**

Network Switches

Identify ports and connections for easier management.

Patch Panels and Network Racks

Keep network infrastructure organised with clear, consistent labels.

Ethernet Cabling

Trace individual cables quickly.

On-site Labelling

Create professional labels directly on-site for fast installation.

Port Identification

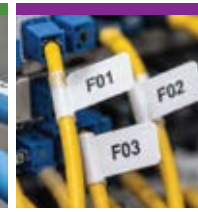
Reduce connection errors and confusion.

Brother labelling solutions help network professionals create clear, durable labels for switches, ports, ethernet cables, and network equipment, ensuring easier maintenance, faster troubleshooting, and better organisation.

They also help minimise connection errors, simplify cable tracing, and support efficient network management.

RECOMMENDED
BROTHER PRO TAPES

A range of durable tapes designed for Networking Applications, providing clear and long-lasting labels.

TZe Flexible ID (TZe-FX)	TZe Self-Laminating (TZe-SL)	FLe Flag (Die-cut)	HSe Heat Shrink Tube
			


Wrap securely around wires and cables.	Protects printed text for cable marking.	Ideal for fibre optic and small-diameter cables.	For permanent cable identification.

APPLICATIONS

Data Centre

Clear identification for racks, servers, cables and IT equipment.

- **Organised network infrastructure**
- **Faster installation and reduced errors**
- **Durable identification for long-term use**

Data Centre Infrastructure

Identify racks, servers, power, and network connections for efficient management.

Patch Panels and Network Cabling

Consistent labels make cable tracing and changes easier to manage.

Rack Identification

Label racks and cabinets for clear asset management.

Power & IT Equipment

Identify power, UPS, and IT equipment for safer operations.

Fibre and Network

Create clear, durable labels for fibre, and data connections.

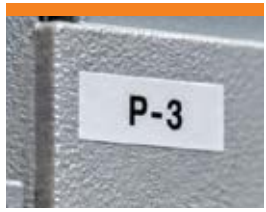
Brother labelling solutions help data centre professionals create durable, clear labels for server racks, patch panels, power connections, and network cables, ensuring easier maintenance, faster troubleshooting, and better organisation.

They also help minimise connection errors, reduce downtime, and support efficient data centre management.

RECOMMENDED
BROTHER PRO TAPES

A range of durable tapes designed for Data Centre Applications, providing clear and long-lasting labels.

TZe Strong Adhesive (TZe-S)



For smooth, rough, and textured surfaces.

TZe Security Laminated (TZe-SE)

Tamper-evident labels for security and compliance.

HSe Heat Shrink Tube

For permanent cable identification.

PROFESSIONAL TAPES

The Pro Tape Range

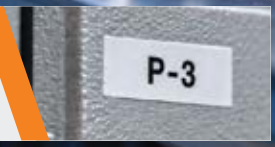
Professional grade labels for trade.

Brother P-Touch Pro Tapes are built with tough and durable professional grade materials and adhesives. From heat shrink tube to strong adhesive tape, choose the right tape for the job.

01

TZe Strong Adhesive Laminated (TZe-S)

For smooth, rough, textured, and powder coated surfaces.



02

TZe Flexible ID Laminated (TZe-FX)

Specially formulated adhesive to wrap securely around wires and cables with a diameter of 3mm or larger.

03

TZe Self-Laminating (TZe-SL)

Provides a protective layer over the printed area for cable marking. Ideal for larger diameter cables including CAT6A.

04

HSe 3:1 Heat Shrink Tube

Printable tube, when shrunk down it ensures a secure fit on wires and cables. Shrink ratio 3:1.

05

FLe Flag (Die-Cut)

Die cut non-laminated flag label. Ideal for fibre optic cables and small-diameter cables.

06

TZe Security Laminated (TZe-SE)

When the label is peeled, it leaves behind a checkerboard pattern indicating the label has been tampered with.

Customize your labels with P-Touch Editor

With P-touch Editor Version 6.0 for Windows, you can import existing graphic files (BMP, JPG / JPEG, GIF, TIF / TIFF), or use enhanced symbols, frames or clip-art files included within the P-touch Editor.

Create logos or custom art using various texts, drawings, barcodes and images. Print barcode labels or other specialty labels either one at a time or print multiple labels in a batch.

Key Features of P-Touch Editor Software:

- Modern UI design for easy customization and designing of labels. Improved navigation with multiple property panes to easily access editing tools.
- Print Settings & Unicode Support. The realistic print preview displays labels in an easy-to-understand manner, enabling immediate printing while Unicode Support allows you to include characters from multiple languages in the same label.
- Improved Label Templates with Advanced Sorting.
- Design labels using any True Type® or OpenType® font installed on your computer or select one of the dozens of fonts included with the software while Text Options such as "Free size," which allows you to create labels without a pre-determined length.
- Clip Art with over 700 clip-art designs to choose from, Shapes & Decorative Frames.
- Cross compatibility of labels designs across P-touch Editor Software and Brother iPrint&Label. Labels created in P-touch Editor Software can be shared with Brother iPrint&Label on your smartphone and vice versa, makes creating labels on the go a breeze!
- Detect the tape size and color loaded into your label maker so you can see your label while you are customizing the design.
- Various image data formats, including JPEG, GIF, BMP, and PNG, can be imported, allowing you to create labels that really stand out.

Pro Label Tool App

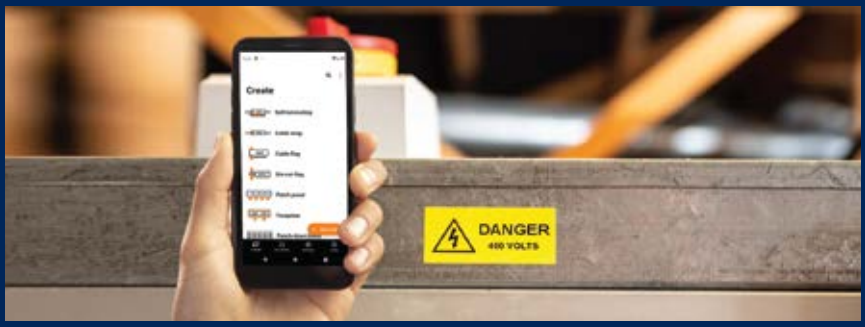
Brother Pro Label Tool is a free app for iOS and Android, designed to create labels for telecom, datacom and/or electrical identification on demand.

It enables you to easily print labels from your smartphone/tablet to a Brother label printer using a local wireless network.

- Easily connect to your PT-E560BTVP label printer.
- Create and edit your own professional, durable labels.
- Ready to print industry templates.
- Compatible with PT-E310BTVP, PT-E560BTVP, PT-E920BT, PT-P950NW, PT-E850TKW

Download on the App Store

GET IT ON Google Play



How the Pro Label Tool app works

Easy to use

In just a few taps choose, edit and print professional quality labels.

Dynamically change the label width in the edit menu.

Keep up to date

Automatic loading of pre-designed label templates from Brother's cloud server to keep them up to date with the Wiring Regulations and standards.

Customise with ease

Use the New label function to create labels with standardised network address information.

You can even add your company logo.

Fully connected

Powerful Print Preview, Connectable to CSV database.

No computer or printer driver required.

Share templates with others.

Compatible label printers PT-E310BTVP, PT-E560BTVP, PT-E920BT, PT-P950NW, PT-E850TKW
