The perfect next-step machines for sewing, quilting and embroidery

Want to get seriously creative?

The **Innov-is NV2700** (combination machine) and the **Innov-is NV880E** (embroidery only) are packed full of easy-to-use features. They're the perfect machines to take you from beginner to intermediate sewing and embroidering.

More time to create – with an automatic needle threader and drop-in bobbin spend more time creating, not setting up.

Never run out of thread – automatic upper and lower thread sensors mean you won't run out of thread mid stitch.

Easy to navigate – easily manage everything on the full colour, large 4.9" touchscreen.

Sit back and sew – the Innov-is NV2700 and NV880E automatically detect fabric being sewn and adjust the tension to suit.

You're in control – quickly access everything that's important via the central control panel. Perfect when you need to make quick adjustments on complex projects.

Stay connected – with Wireless LAN connectivity and USB port your machine will continue to grow with Brother's innovative developments.

Keep learning – built-in tutorials and help function mean you'll always have a personal sewing tutor at your side.

Exquisite embroidery with the Innov-is NV2700 and NV880E

A large working area and generous embroidery space give you plenty of room to get creative. Featuring brand new embroidery designs, pattern editing and colour sorting, your projects will be 'sew' unique – just like you.

Bursting with 258 built-in embroidery designs – including BRAND NEW regal, fun llamas, jungle animals, flower power, pretty lavender and blackwork patterns.

Personalise! Choose from the 13 built-in fonts or monogramming function to add your unique personal touch to any project.

Perfect positioning – let the LED needle pointer point the way to better embroidery. Drop your needle exactly where it needs to be, so you always place your pattern in the right place.

Fast and precise – stitch out speeds of up to 850 stitches per minute.

'Sew' unique – quickly adjust, mirror, re-size and edit text. Save everything to the machine's memory so you can use it again.

Pretty neat – the thread trimmer function trims any excess threads for you. Bye, bye snips!

Auto foot down – program your machine to automatically put the foot down and start embroidering when you press the start/stop button.

A life of colour – preview embroidery designs in full colour. Colour sort the order in which multi-coloured embroidery designs are stitched – reducing colour changes and minimising embroidery time.

New quilting designs – beautiful embroidery quilt designs let you finish off your quilts in style.

Data transfer is easy!

With Wireless LAN connectivity you can wirelessly transfer data and keep up with Brother's software developments.

Try out the new FREE Design Database Transfer program* to wirelessly send your designs from your PC to your machine.

You can also add more designs via the built-in USB port.

*Compatible with Windows desktop devices only.

Large font and monogram designs

Innov-is NV2700 only

Supercharge your sewing and quilting with the Innov-is NV2700

Whether you're into interiors, stepping up your sewing, an avid quilter, or want to tackle more intricate projects, the Innov-is NV2700 has been designed to give professional level precision from easy-to-understand features.

More space to create – the generous 8.3” workspace means you can tackle large projects with ease, or just give yourself a little more space when you’re tackling something complicated.

291 built-in stitches incl. 10 buttonholes – whatever your project there’s a stitch to suit, from utility, to decorative, to buttonholes. The only difficulty is in choosing...

Sharp corners – use the pivot function to raise the presser foot whilst keeping the needle in the fabric for easy and accurate fabric rotation and ultra-sharp finishes.

No snips needed – press the central thread cutter button and your machine automatically cuts your sewing threads close to your work.

So smooth – with Brother’s innovative SFDS (square feed drive system) you get a smooth even feeding action for superior stitch quality on any weight of fabric.

Take the pressure off – with Brother’s innovative ICAPS system the Innov-is NV2700 detects changes in fabric thickness and automatically adjusts foot pressure for super smooth stitching.

Auto foot down – program your NV2700 so the pedal automatically lowers your presser foot.

Hands free – use the included knee lift lever to lift the presser foot with your knee, meaning you can keep control of bulky or complex projects.

My Custom Stitch™

Stitch your unique creative style into every project with My Custom Stitch™. Create your own unique stitch patterns or edit built-in stitches to make them truly yours. You can even save your creations to your machine for future use.

Walking foot included!

Sewing tricky layers of fabrics is now easy and enjoyable. The included walking foot’s handy quilting guide keeps your stitching straight and perfectly equal.

The Innov-is NV2700 and NV880E are packed full of Brother's innovative features

General features

LCD display	4.9" colour touch screen
Compact face plate	The angle of the face plate has been improved so it is easier to reach the needle when it needs changing.
Automatic needle threader	Follow the guide, thread the needle and press the lever. Voila!
Drop-in bobbin	Just drop in a full bobbin and you're ready to go.
Central control panel	All important functions within easy reach.
Thread sensors	Upper and lower thread sensors alert you to broken threads and automatically stops your stitching.
Start/stop button	Ergonomic large start/stop button for use without the foot pedal.
Speed	850 stiches per minute – achieve more with a quicker stitch out.
USB connectivity	Transfer even more embroidery patterns to your machine.
WLAN data transfer enabled	Transfer embroidery designs via WLAN with Design Database Transfer program*. Make updates to your machine wirelessly so your machine will continue to grow with you, and with future Brother developments.
Built-in tutorials	A sewing tutor always at your side. Easily learn how to operate your machine.

*Compatible with Windows desktop devices only.

Embroidery features

Embroidery area	260 x 160 mm embroidery area - space to stitch out large, intricate designs.
Built-in designs	258 built-in embroidery patterns - including BRAND NEW regal, fun llamas, jungle animals, flower power, pretty lavender and blackwork patterns.
Built-in fonts	13 fonts (nine alphabet, one Cyrillic, three Japanese) – make anything you want to say beautiful.
Text edit functions	Simplified user interface for text input and editing, with various editing capabilities such as curving, arraying and space adjustment.
140 built-in frame patterns	Add frames to monograms and other embroidery patterns.
Thread trimming	Programmable jump stitch cutting – trims any excess treads for you.
Monogram built-in designs	Personalise projects, homewares, gifts, clothing and much more.
LED pointer	For easy positioning of embroidery patterns.
Auto foot down	Program your machine to automatically place the foot down when you press the start/stop button.
Advanced editing functions	Editing features include layout, combine patterns, pattern rotation, size, mirror imaging and more.
Colour sorting	Groups the same colours together to avoid you having to rethread as much.
Colour change	Change the colours of your embroidery easily via the colour touchscreen.

Innov-is NV880E

Embroidery only machine

Innov-is NV2700

Sewing, quilting and embroidery machine

This machine is not only a sewing machine, it is also equipped with an embroidery unit to create beautiful embroideries.

Sewing Features – Innov-is NV2700 only

Workspace	8.3" workspace – there's plenty of space to spread out.
Built-in sewing stitches	291 built-in stitches incl. 10 one step buttonholes – whatever you're sewing, there's a stitch to suit.
Lettering fonts	Five built-in lettering fonts (three alphabet fonts, one Cyrillic font, one Japanese font)
Combination stitches	Individual adjustment for combined stitches (depending on category)
My Custom Stitch™	Sew stitch patterns you've designed yourself, or edit pre-existing patterns.
Sideways feed	Sew decorative stitches up to 40 mm wide.
ICAPS fabric sensor system	Machine can detect fabric thickness and automatically adjust its foot pressure, providing a superior even stitch quality.
Pivot function	Automatically lift the foot with the needle down. Great for sewing corners.
SFDS	Square Feed Drive System for superior stitch quality on any weight of fabric.
Drop feed function	Drop the feed dogs out of the way for free motion or free hand sewing.
Free arm	Remove the accessory drawer to make sewing tubular items, like sleeves, easier.
Automatic presser foot functions	Bring the presser foot down automatically using the Start/Stop button, knee lift and foot pedal.
Programmable functions	Needle up/down, foot up/down, auto thread cutting, reinforcement priority and other useful sewing functions.
Central controls	Lockstitch, reverse sewing, needle up/down, thread cutter and speed slide control are all conveniently located on the central panel for easy use.
Knee lift	Free up both hands by lifting the presser foot with your knee.
Free motion	Free motion foot height adjustment depending on the thickness of your fabric.
Walking foot with guide included	Tackling tricky layers of fabrics becomes easy and enjoyable.

Never stop creating

From presser feet for every project, to storage bags, to sewing accessories. The only limit is your imagination!

New! Magnetic embroidery hoop!

Brand new to Brother is the optional 180 x 130 mm magnetic embroidery hoop. Don't waste time fiddling with catches or levers, just hoop any material up to 2mm thick, set and go. You can use the new magnetic hoop on the NV series and up!*

Always at your side

At Brother we're always 'at your side' and will be with you every step of your sewing, quilting and embroidery journey. Our tutorial movies on the support app are only a click away, so download today. To get your creativity flowing we've produced some 'how-to' videos to help and inspire you, find them on the Brother Support App – download now!
